Creating Your Scarecrow

There are many resources available online about making a scarecrow, but there are a few things to not overlook!

- Materials should be able to withstand outdoor weather conditions, including but not limited to rain and high winds. For tips, see below.
- Do not include any items you don't want damaged or taken. The Town of Marshall and Beacon of Hope are not responsible for any lost, stolen, or damaged personal items associated with the scarecrow while on display.
- Please pick up your scarecrow beginning November 1st through the first week of November. If you do not collect your scarecrow by November 7, it will be recycled/thrown away.
- Use care in choosing your materials. Decorations to create a scene for your scarecrow is allowed, however, the scarecrow must be movable (25lbs or less), be no more than a 6 feet x 6 feet base and no more than 7 feet tall. It must be self-supporting, weatherproof in wind or rain. All decorations must be firmly attached.
- No Electricity (anything that needs an outlet; battery operated items can be used)
- No flammable objects such as tiki torches or gas-powered generators are allowed.
- Human scarecrows or mechanical scarecrows facilitated by a human are not allowed.
- No perishable goods or glass
- Nothing that could be considered dangerous
- Political or controversial statements, hate speech, and adult content are not permitted. Entries that are deemed tasteless, promote any sort of partisanship, or promote slander will not be accepted.
- Beacon of Hope reserves the right to deny any entry.

Weatherproofing Tips:

Keep in mind, your scarecrow will be displayed OUTSIDE for almost a month. Here are a few suggestions to help keep your scarecrow looking it's best at the end of the month for judging:

- We recommend using plastic grocery bags as stuffing. We do not recommend using straw or paper for padding/stuffing as they get wet, become heavy/saggy, attract bugs, and do not dry out. Styrofoam peanuts also tend to make a huge mess.
- Seal the stuffing inside two layers of waterproof material such as garbage bags or synthetic horse feed bags.

- Securely wire on all loose parts (such as the head and hat) to the main structure to prevent them being blown off in the wind.
- Use waterproof materials such as unraveled synthetic rope for the hair.

Display & Voting Period:

October 11 - October 25

Individuals' (and nonprofits or businesses that do not have a location around downtown) designs will be displayed on the walking trail around Blannahassett Island in Marshall.

Downtown businesses will have designs displayed outside of their business (**allowing 4' space along sidewalks**).

Vote Online (Free to ALL) QR CODES found on the scarecrows & links to a simple voting form on our website (bohmarshall.org).

Winners for each category (individual, nonprofit, and business) announced at **Beacon's Grand Opening October 26th!**
